Concern : Verified Conservation Area support letter

To whom it may concern,

I want to strongly support the project of the Property of Wagnée at Florée (Belgium) to join the Verified Conservation Area registry.

The proposal fulfils largely the VCA requirements (ref : VCA-Standard-Nov2016.pdf) to plan to develop a Conservation Management Plan to conserve or develop nature and use living natural resources in a sustainable way.

Moreover, it is located in an area where protected zones are still rare then numerous other areas of more or less biological interest are present. This project can serve as a starting point for building a relevant network of similar sites.

Yours faithfully

Professeur Marc DUFRENE
